Comments: The UAA survey was conducted in May 2007 and no WBCR was observed. No interviews were conducted during the survey. It has been proposed that this water body be combined with the downstream portion of Smith Creek (WBID# 1630) to form Clear Fork (WBID#1631). The proposed name change does not affect the committee's recommendation.

Comments: The stream met the maximum depth criterion at 1 of 2 sites evaluated. Due to meeting the maximum depth criterion, the committee recommends the WBCR use designation be assigned.

Committee Recommendation:
